

300 Breesport, San Antonio, TX 78216

1. FIRST, READ ALL WARNINGS ON CAN.
Then calculate amount of TCP required for each tank (**30ML treats 10 US Gallons Blue 100LL Avgas**). Use with syringe P/N: 73138.

2. Remove cap from can.
Fully insert syringe tip pushing syringe plunger down completely and then draw out the required amount of TCP.

3. Carefully dispense/
inject TCP into aircraft fuel tank taking care not to get on painted surfaces.

To Use ALCOR TCP Fuel Treatment
